About me

Dedicated and result-driven professional with a strong background in problem solving, time management, and Web development. Experienced in planning, designing, and implementing user-centric websites. Eager to Contribute my technical expertise and work ethic to a dynamic team, with the goal of excelling in the Software Engineer role at your company.

Education

ABESIT Insititute of Technology (2022-2025)   **Ghaziabad**
Bachelor of Technology in Computer Science and Engineering

Saraswati Inter College   **Hathras**
Secondary School

Saraswati Inter College   **Hathras**
High School

Projects

Weather App / *React.js,TailwindCSS,OpenWeatherMap API*

 Built a responsive weather application using **React.js**, **Tailwind CSS**, and the **OpenWeatherMap API** to fetch and display real-time weather data based on user location or search queries. Implemented features like temperature, humidity, wind speed display, and dynamic weather icons with a clean, mobile-friendly UI.

Code Editor / *HTML, CSS, JS*

Developed a simple web-based code editor using HTML, CSS, and JavaScript, featuring a real-time preview of code changes. Designed the interface with a responsive layout and implemented functionality to dynamically update the preview based on user input.
